You're **not**  
**running out of**  
**space**, you're  
using the  
**wrong storage**  
**products.**

# Save Space

## Optimize Storage & Picking

### Ineffective Use of Pallet Racking

Pallet racking is not always the best solution for your storage needs and work flows

- Poorly managed inventory that needs organization
- Products on pallets are stored on the floor and not on the pallet racking
- Products can't be seen or picked
- Results in poor productivity
- Dangerous work environment

Metalware E-Series Widespan shelving organizes your storage requirements and recovers valuable floor space for other uses including:

- in-plant office
- packing and shipping area

# Save Space

## Optimize Storage & Picking

### Recover You Valuable Floor Space & Organize Your Work Processes

Pallet racking in the facility is not well suited to the products being stored

Current storage system is not optimized, leading to wasted storage space and poor inventory management

A Metalware shelving solution recovers your valuable floor space and optimizes your warehouse

- Store more product in a smaller footprint
- Free up floor space for other warehouse functions
- Keep your employees happy and organized

---

# Save Space

Optimize Storage & Picking

## Grow up with Metalware High-bay Shelving Solutions

Warehouse facilities that have an existing ground level storage system can take advantage of overhead clearance to expand vertically with a Metalware high-bay picking solution.

When there is a need to increase storage capacity and the option to relocate is too expensive - move up!

## Applications

- Ecommerce and on-line retailing
- Retail clothing manufacturers
- Distribution centers for plumbing, electrical, agricultural parts and equipment
- Automotive parts
- 3PLs
- Hospital, government/public archives.

### Interlok Boltless Shelving

This versatile industrial “boltless” storage shelving system, produced in either 18 or 20 gauge cold-rolled steel, is designed to keep quality high and costs low by reducing nuts, bolts, and other tools from the assembly process.

### E-Series Widespan Shelving

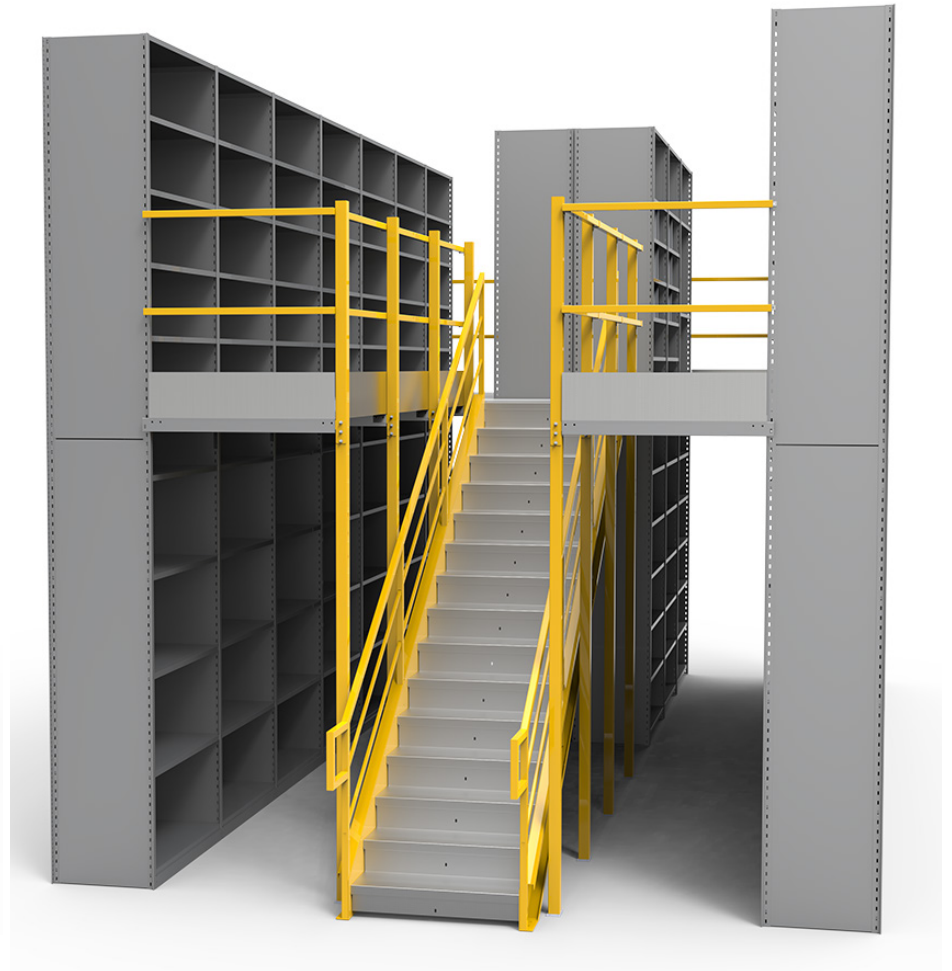

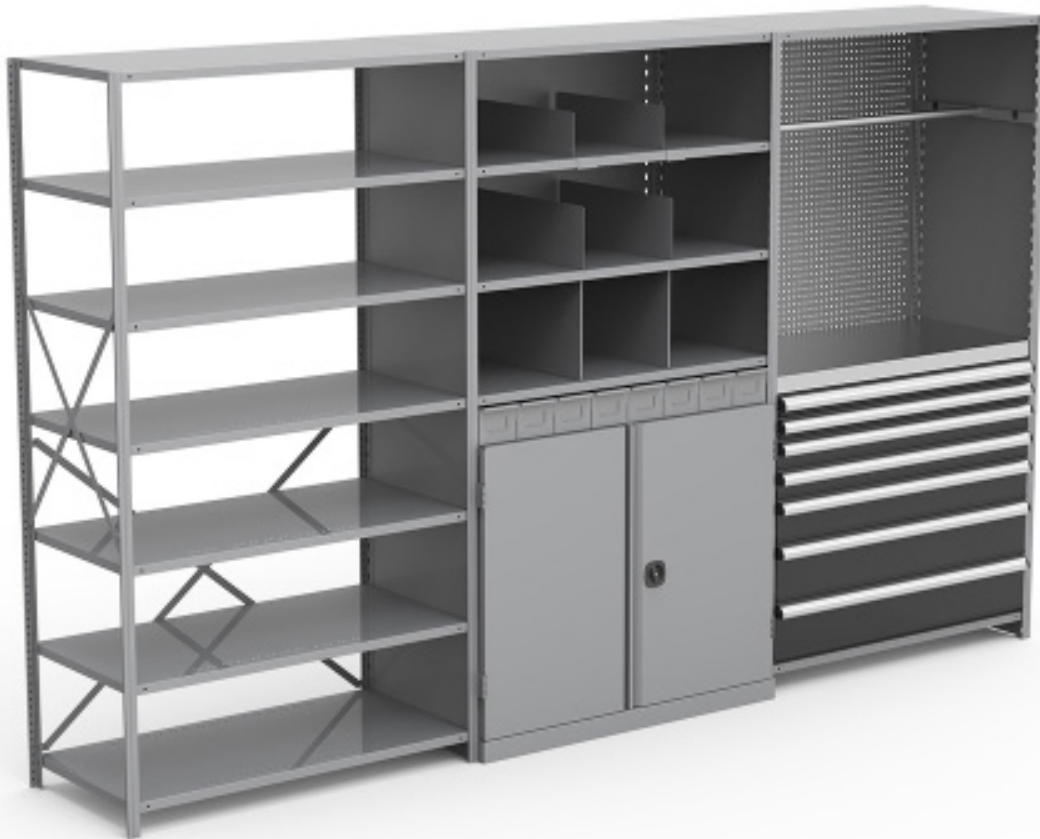

Featuring the highest weight capacity of the Metalware shelving storage systems products, heavy-duty bulk rack E-Series Widespan shelving offers state-of-the-art durability, flexibility, and efficiency for all your warehouse shelving storage needs.

### Multi-Level Storage Systems

Multi-level, or multi-tier storage shelving structures, are comprised of either Metalware Interlok “No-Bolt” shelf units or E-Series Widespan shelving. These types of systems can be referred to as “catwalk” or “deck-over” shelving mezzanines.

# Interlok Boltless Shelving

Whether for commercial or industrial shelving storage purposes, industrial steel boltless shelf systems can help you better utilize your space. Interlok shelving bays can be combined to create multi-level storage structures similar to mezzanines and raised platform storage areas. Additionally, a number of different accessories are available and can be added to Interlok shelving.

<https://metalwareshelving.com/products/widespan-storage-shelving/>

Unusual-size merchandise doesn't always require pallet racking. E-Series Widespan heavy-duty shelving solutions offer the advantages of being easy to adjust while still being robust. They come with a several beam lengths, frame depths and shelving options.

# Multi-level Storage System

## Shelving Supported Platforms

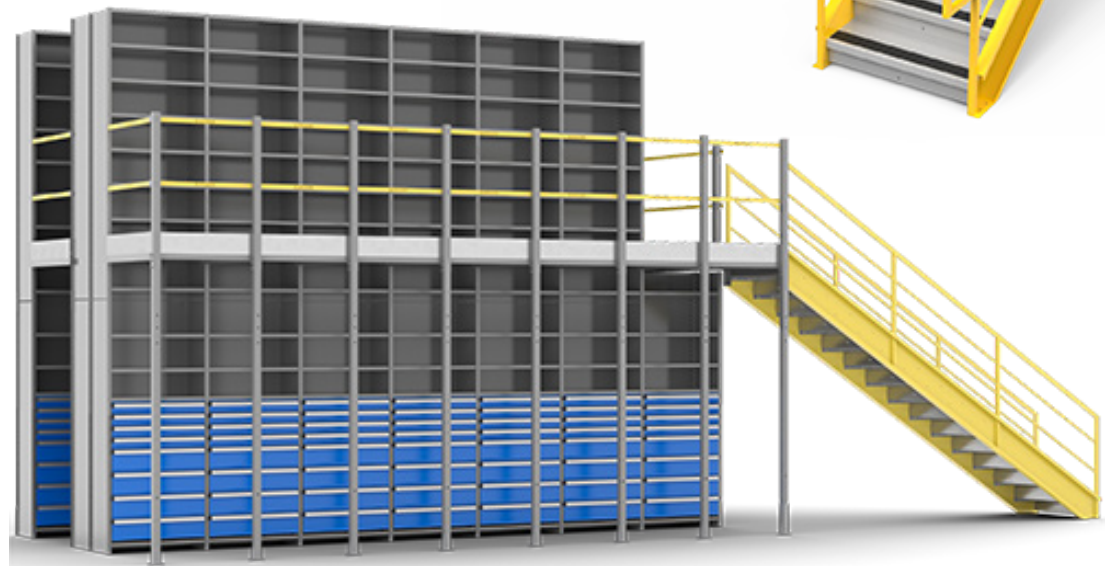

Both Interlok and E-Series Widespan shelving offer significant upward expansion thanks to the possibility of being transformed into multi-level storage applications, allowing our clients to maximize their storage capacities while minimizing costs linked to relocation or warehouse expansion.

### About Metalware Shelving

Strength, support, and integrity are the core principles that define us. From conceptualization, Metalware Shelving is among North America's leading industrial shelving manufacturers. As the first company to patent and market No-Bolt shelving, we pride ourselves in always being one step ahead of our competition through innovative technologies, adaptive solutions, competitive prices, and unparalleled customer service. Bottom line — we've been raising the standard for industrial shelving since 1954.
